

SPECIAL INDUSTRY OPERATION

UP TO 8 YEARS WARRANTY*

FROST FRANCE CELEBRATES ITS 30 YEARS AND OFFERS THIS OCCASION AN EXCEPTIONNAL OFFER.

INDEED, FOR ANY INSTALLATION ORDERED IN 2013, WE BRING WARRANTY TO A NEVER SEEN LEVELS FOR CONVEYORS INSTALLATIONS.

The arrival those last years, of conveyors "low cost" new manufacturers pushed us:

- To be force of proposals during the phases of pre-study.
- To go further in automation or supervision solutions .
- To study facilities whose monitoring allows us to view a **ratio between the overall conveyor investment budget and the total cost of parts per year.**

This is because you are never provisioning enough money for unexpected maintenance that you need to invest in reliability.

The result of this ratio over the last 7 years allows us the following statement:

- 30% would have a ratio of between **0.1% and 0.2%**
- 50% of customers have a ratio lower than **0.1%**
- 20% of customers have unmatched ratio of **0.0%**

(they have never ordered any spare parts off first aid list).

6 years or 11 500 hours WARRANTY ON POWER AND FREE CONVEYORS.

Power and free Conveyors can be very complex, both mechanically than in automation level. The possibilities offered by those conveyors are such that reliability problems can lead to lower availability rate of 50% or annual very high maintenance costs Result, in most cases, the savings made at the purchase is lost in 2 or 3 years. Designer, manufacturer and installer controlling in internal wiring and automation of these conveyors. FROST France guarantees you rigor and mastery in all stages of development of a line of power and free conveyors. This rigor and control associated with manufacturing 100% FRENCH allow us to be able to commit to a long-term guarantee of 6 years or 11,500 hours of operation on our power and free conveyors.

This warranty is subject to the condition of compliance with the operating and maintenance instructions as well as 2 visits annual maintenance performed by our technicians and billed on average € 1,200 each.

So choose the most reliable conveyor in the market.

8 year or 15 000 heures warranty On the MONORAIL conveyors.

Cheapest conveyors are often very costly in production shutdown and spare parts.

They often see the savings made on the purchase consumed by spare parts and production losses in 2 or 3 years, sometimes even after the first year of operation.

That is why for the installation of a FROST France overhead Monorail conveyor, "turnkey", range 2", 3", 4" or 6", we guarantee 8 years or 15 000h, parts, labor and travel.

This warranty is subject to the condition of respectnof operating and maintenance instructions as well as annual 2 maintenance visits performed by our technicians and billed on average € 1,000 each.

* Excluding manufactured parts guaranteed by their manufacturers (such as cylinders, gear box, contacts, sensors, etc ...) - see our guaranty conditions ..
